MINUTES OF MEETINGS
OF THE
Board of Commissioners

NOVEMBER 1921

NEWARK, N. J.

November 1, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

Present:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Absent:—Commissioner Raymond.
The minutes of meeting of October 25th were read and approved.

Mayor Archibald:—Owing to the absence of Director Raymond I think we had better postpone the hearing on the ordinance for the widening of Park Place.

Commissioner Brennan moved that an ordinance entitled "An Ordinance to provide for the opening and widening of Park Place from Rector Street to Saybrook Place on the easterly side thereof", be laid over until November 9th.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Breidenbach offered the following resolutions:

RESOLVED: That the report of the Commissioners for Local Improvements of the City of Newark, assessing benefits for the paving of Huntington Terrace from Hawthorne Avenue to Renner Avenue, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed and the City Clerk is hereby authorized and directed to file a duplicate of said report in the office of the Comptroller of the City of Newark upon its confirmation for collection.

F. C. Breidenbach,
A. Archibald,
W. J. Brennan,
Charles P. Gillen.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

RESOLVED: That the report of the Commissioners for Local Improvements of the City of Newark assessing benefits for the grading, curbing, flagging and paving of Wolcott Terrace from Hawthorne Avenue to Clinton Place, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed and the City Clerk is hereby authorized and directed to file a duplicate of said report in the office of the Comptroller of the City of Newark upon its confirmation for collection.

F. C. Breidenbach,
A. Archibald,
W. J. Brennan,
Charles P. Gillen.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

RESOLVED, That the report of the Commissioners for Local Improvements of the City of Newark assessing benefits for the grading, curbing, flagging and paving of Bergen Street from Lyons Avenue to Weequahic Avenue, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed and the City Clerk is hereby authorized and directed to file a duplicate of said report in the Office of the Comptroller of the City of Newark upon its confirmation for collection.

F. C. Breidenbach,
A. Archibald,
W. J. Brennan,
Charles P. Gillen.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Brennan moved that an ordinance entitled "An Ordinance to provide for the opening of a new street to be called Carnegie Avenue from Haynes Avenue to McClellan Street", be laid over until November 9th.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mr. P. C. Walsh, representing the Federal Real Estate Company, appeared before the Board and presented the following petition against the repaving of Clay Street and Carlisle Place:

To The Board of Commissioners,
of the City of Newark.

We, the undersigned being taxpay-
ers and property owners on either side
of Clay Street and Carlisle Place, do
respectfully urge upon your Honorable
Board, that it is unwise and a useless
expenditure of money at the present
time to repave Clay Street and Carlisle
Place, from Broad Street to Ogden
Street and from Ogden Street to the
Passaic River, in accordance with the
notice of such repaving dated October
11, 1921.

We have considered the matter very thoroughly and believe that the repaving at the present time will create a very burdensome charge against our respective properties without any adequate benefit therefrom. The reason which have led us to this conclusion are as follows:

In the first place, both Clay Street and Carlisle Place were repaved within 12 or 15 years and the pavement is at present in good serviceable condition, except between and adjacent to the street railway tracks. The portion of the street between the tracks and adjacent thereto does not in any way interfere with the use of the street by vehicles of all descriptions, and if this should be put in good condition the entire widths of these streets would be sufficiently improved for all purposes.

In the next place, the burden upon us as taxpayers at the present time would be almost if not quite unsupportable on account of the present business depression.

In addition to this the cost of materials and labor at the present prices is practically at its highest point and the cost therefore would be far in excess of the normal cost of such improvement.

We also respectfully call your attention to the fact that the properties on either side of these streets have within the last few years been subjected to very heavy assessments for the opening of Clay Street and various other improvements, which though of great benefit to the public in general have been of very little benefit to the properties themselves, and that an additional assessment of any kind at

the present time will be extremely burdensome and unfair to us as property owners without adequate compensating returns.

Respectfully yours,

Federal Real Estate Co.,
P. C. Walsh, Jr., Secretary,
and 15 other property owners.

Commissioner Brennan moved that the ordinance providing for the repaving of Clay Street and Carlisle Place be laid over until November 9th, and that the communication be referred to Director Raymond.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Brennan moved that the following ordinance be laid over until November 9th:

An Ordinance to provide for the repaving of Bridge Street from Broad Street to the Passaic River on both sides of the street railway tracks with the exception of one foot on each side of said tracks with new oblong granite block pavement on a new six (6) inch concrete foundation;

An ordinance to provide for the repaving of Ogden Street from Fulton Street to Bridge Street with new oblong granite block pavement on a new six (6) inch concrete foundation on both sides of the street railway tracks with the exception of one foot on each side of said tracks;

An Ordinance to provide for the

vacation of Howard Street from Roseville Avenue northwesterly about 850 feet to its terminus.

The roll being called, the motion was declared adopted by the following votes:

Yea:-—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mr. Warren A. Roe, 20 Milford Avenue, appeared before the Board and presented the following communication:

To the Board of Commissioners,
of the City of Newark.

The Newark Public School Principals' Association respectfully desires to report that:

Whereas, due to the extraordinary growth and the ever increasing amount of vehicular traffic in this city over noisy pavements in the vicinity of certain public schools, it is impossible to do efficient work; and

WHEREAS, this interruption to school work represents a loss not only in money to the citizens of this city, but also in education to the children of these districts; and

WHEREAS, we consider adequate facilities for the education of our children one of the first duties of the City, we respectfully petition your honorable body to instruct and direct the proper department to order its engineers to make a survey of the schools affected and to formulate a four (4) year paving program sufficiently comprehensive to give the schools complete relief within that period, that there be incorporated in

the next and succeeding budgets a sufficient sum of money to complete this program and that this cost be levied upon the City at large; since the entire school district will be benefited.

Claude L. West, President.

Warren A. Roe, Chairman.

Commissioner Gillen:—This is a very important matter. It was discussed in the old Board of Works some years ago. The child does not get the benefit of instruction and the teacher does not give the best in him because of the noise, and I think this Board should take cognizance of it.

Commissioner Brennan moved that the communication be referred to Director Raymond.

The roll being called, the motion was declared adopted by the following votes:

Yea:-—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mayor Archibald offered the following resolutions:

Chamber of Commerce of the
City of Newark, New Jersey.

October 31, 1921.

To the Honorable
The Board of City Commissioners of
The City of Newark, N. J.

Gentlemen:—

A petition has been filed with the
Public Utility Commission by the
Jersey City Board of Commissioners,
praying for an order to have Newark
trains of the Hudson and Manhattan
Railroad stop at Marion Station,
Jersey City.

Upon authority of the Board of Di-
rectors, the Chamber of Commerce
will enter appearances in opposition
to the petition, based on the fact,
among others, that such stoppage of
Hudson and Manhattan trains at Ma-
rion would cause unnecessary delay
and inconvenience to a large volume
of through passenger traffic between
Newark and New York.

Your attention is respectfully called
to this important subject in the hope
that your Honorable Board will also
take suitable action thereon.

Yours very truly,

Chamber of Commerce of
The City of Newark, N. J.
E. W. Wollmuth, Secretary.

Ordered referred to the Director of
the Department of Streets and Public
Improvements.

Chamber of Commerce of
The City of Newark, N. J.

128 Market Street.

October 31, 1921.

To the Honorable

The Board of City Commissioners of
The City of Newark, N. J.

Gentlemen:—

Transmitted herewith please find
true copy of preamble and resolution
adopted at the regular monthly meet-
ing of the Chamber of Commerce of
the City of Newark, N. J., held on Oc-
tober 27, 1921.

The purpose of the resolution is to
set forth the principle that the abond-
ment of the canal should be brought
about on the basis of a just and rea-
sonable agreement between the State
of New Jersey and the Lehigh Valley
Railroad and not in the Courts
through condemnation proceedings
which would involve interminable lit-
igation and result in the continuance
of the canal for a great many years
to come.

Under the resolution the Committee
on Canal Abandonment of the Cham-
ber is authorized and directed to co-
operate with the proper city authori-
ties. May we suggest that a confer-
ence be arranged at an early date be-
tween the proper city authorities and
our Canal Abandonment Committee so
that immediate steps may be taken to
outline a definite plan of action.

Yours very truly,

Chamber of Commerce of
The City of Newark, N. J.
E. W. Wollmuth, Secretary.

Ordered referred to the Law Department.

United States Shipping Board

Washington, October 25, 1921.

City Commission,

City of Newark, N. J.

Gentlemen:—

Widening of Park Place.

Objection is entered against the proposed widening of Park Place as referred to in the ordinance of the City of Newark recently introduced before the City Commission by Mr. William M. Wright and myself, Trustees of the will of Dora M. Wright, owning one-half interest in the land, also by William M. Wright and Dora M. W. Parker, individually, each of whom have a one-sixth interest in the land. I am also authorized to enter the objections of the United Cigar Stores Company, who have a lease hold on the whole premises for 25 years. The ground for the whole objection is that the improvement is unnecessary and unwise, and will entail the useless expenditure of money, and exactly the same result can be accomplished by using the sidewalks on the south side of Park Place, no part of which is part of the park as shown by the old surveys, and that it would be entirely proper for the City Commission to widen the street by utilizing such sidewalks and straightening the line of the park to conform with the survey made by the City of Newark about 1810.

Very truly yours,

Chauncey G. Parker.

Ordered referred to the Director of the Department of Streets and Public Improvements.

NEWARK. N. J.

November 9, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Council Chamber, City Hall, Newark, N. J., at 11 A. M.

Present: Commissioners Breidenbach; Brennan, Gillen, Raymond, Mayor Archibald.

The minutes of meeting of November 1st, 1921, were read and approved.

The following reports of the Commissioners of Assessments for Local Improvements, assessing benefits for the following street improvements were received and ordered filed:

Resurfacing of Fulton Street, Broad Street to Ogden Street;

Repaving of Lewis Street, West Kinney Street to Seventeenth Avenue;

Paving, curbing and flagging of a triangular strip on the westerly side of Peshine Avenue, about 120 feet northerly.

Mr. John C. Eisele, 9 Clinton Street, representing Joseph Stern, owner of 100 feet of property on Bloomfield Avenue, appeared before the Board and objected to the amount of award made his client of \$34,000, and stated he felt the award should be increased to \$44,000.

Commissioner Raymond moved that the report be referred back to the Assessment Commission to reconsider this particular case and that the report be confirmed as to the other awards.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond offered the following resolution:

RESOLVED, That the report of the Commissioners of Assessments for Local Improvements of The City of Newark, awarding damages for the opening and widening of Belleville Avenue and Bloomfield Avenue at the southwesterly and northwesterly corners thereof by the addition thereto of two triangular strips, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed, except as to the award of damages to Joseph Stern, designated in said report as Award No. 1, which said award is hereby referred back to the Commiss-

sioners of Assessments for Local Improvements for further consideration and report; and,

BE IT FURTHER RESOLVED, That the City Clerk be and he is hereby authorized and directed to file a duplicate of said report in the office of the Comptroller of the said City of Newark for collection.

F. C. Breidenbach,
A. Archibald,
W. J. Brennan,
Charles P. Gillen,
Thomas L. Raymond.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond moved that an ordinance entitled “An Ordinance to provide for the opening of a new street to be called Carnegie Avenue from Haynes Avenue to McClelland Street” be laid over until November 22nd.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Mr. P. C. Walsh, representing the Federal Real Estate Company, appeared before the Board and stated that practically 100 per cent. of the property owners on Clay Street and Carlisle Place were opposed to the repaving of Clay Street, stating that

the pavement was in good serviceable condition except between the trolley tracks, and that it would be of no particular benefit to property owners, but instead would be an improvement for the benefit of the general public.

Mr. John Eustice, representing the Traffic Club, and Mr. Mahlon Drake, representing the Committee on Streets of the Chamber of Commerce, favored the repaving of Clay Street and Carlisle Place.

Commissioner Raymond: — I feel the improvement is necessary. How would you feel about an assessment of 25 per cent. on the property owners and 75 per cent. on the City, Mr. Walsh?

Mr. Walsh:—I am not prepared to say off-hand. I would not want to consent to it until I have had time to look into the matter.

Commissioner Raymond moved that the ordinance for the repaving of Clay Street and Carlisle Place be laid over until November 22nd, in order that the ordinance may be prepared to provide for the assessment of 25 per cent. on property owners and 75 per cent. on the City.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond moved that the ordinance providing for the repaving of Bridge Street, from Broad Street to the Passaic River be laid over until November 22nd, in order that the ordinance may be prepared

to provide for the assessment of 25 per cent. on property owners and 75 per cent. on the City.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond moved that the ordinance providing for the repaving of Ogden Street from Fulton Street to Bridge Street be laid over until November 22nd in order that the ordinance may be prepared to provide for the assessment of 25 per cent. on property owners and 75 per cent. on the City.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Mr. Wm. L. Morgan, Prudential Building, representing the Robert B. Simmons Estate, Trinity Church and the Sauvage Estate, appeared before the Board and objected to the ordinance providing for the widening of Park Place on the northerly side of the street on the ground that it would depreciate the value of the property, and suggested that the widening be done on the Park side.

Commissioner Raymond:—In talking to the objectors, I find the objection is based on the expense to the property owners. The ordinance as it now stands provides that this shall be a public improvement. If we amend the ordinance to make it a general im-

provement chargeable to the City, I feel it will satisfy all concerned and bring about this very important improvement without any objections.

Commissioner Raymond moved that the ordinance providing for the opening and widening of Park Place from Rector Street to Saybrook Place be placed back on second reading for the purpose of amendment.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond offered as a substitute for Paragraph 2 of Section 1, the following and moved its adoption:

"Said improvement to be made as a general improvement and the cost thereof to be assessed against the City at large."

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Paragraph 2, Section 1, was then declared open to amendment.

The ordinance as amended was read through by the Clerk:

Title declared open to amendment.
Section 1 declared open to amendment.

Section 2 declared open to amendment.

The ordinance was declared open to amendment in all its parts.

The ordinance having been read a second time, Commissioner Raymond moved that it be ordered to a third reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond moved that the ordinance be taken up on third reading and final passage on November 22nd.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Raymond moved that the title of "An Ordinance to provide for the vacation of Howard Street from Roseville Avenue northwesterly about 850 feet to its terminus," be taken for its third reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

The clerk then read the title of the ordinance as follows:

An Ordinance to provide for the vacation of Howard Street from Rose-

ville Avenue northwesterly about 850 feet to its terminus.

The ordinance having been read three times was then declared to be upon its third and final passage.

The roll being called, the ordinance was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Gillen moved that the ordaining clause of an ordinance entitled "An Ordinance to authorize the conversion of the abandoned reservoir located in Branch Brook Park in the City of Newark into an open air swimming pool and providing for the financing thereof," be stricken out.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Gillen offered the following ordinance which was read by the Clerk:

An Ordinance to authorize the conversion of the abandoned reservoir located in Branch Brook Park in the City of Newark into an open air swimming pool and providing for the financing thereof.

The Board of Commissioners of the City of Newark, Do Ordain:

Section 1. That the conversion of the abandoned reservoir located in Branch Brook Park in the City of

Newark into an open air swimming pool be and the same is hereby authorized.

Section 2. That the total cost of said work shall not exceed the sum of One Hundred Thousand Dollars (\$100,000).

Section 3. Pursuant to the provisions of Section 13 of Chapter 252 of the Laws of 1916, as amended, there shall be issued temporary improvement bonds of The City of Newark in an aggregate principal amount not exceeding One Hundred Thousand Dollars (\$100,000), bearing interest at rate not exceeding six per centum (6%) per annum, payable semi-annually, for the purpose of temporarily financing the cost of the conversion of the abandoned reservoir located in Branch Brook Park in the City of Newark, into an open air swimming pool, including the original furnishings, equipment, machinery or apparatus required in order to make such building suitable for said purposes. All other matters in respect of said Temporary Improvement Bonds shall be determined by the Director of the Department of Revenue and Finance, subject to the provisions of this ordinance and of Chapter 252 of the Laws of 1916, as amended, and the Director of the Department of Revenue and Finance is hereby authorized to issue said Temporary Improvement bonds at such time or times and in such amounts as he may deem advisable. The Mayor, Director of the Department of Revenue and Finance, City Auditor and City Clerk are hereby authorized and directed to execute said bonds, or so many thereof as the said Director of the Department of Revenue and Finance shall deem it advisable to issue.

Section 4. The sum of One Hundred Thousand Dollars (\$100,000) to be raised by the issuance of said Temporary Improvement Bonds is hereby appropriated for the purposes for which said bonds are hereby authorized to be issued.

Section 5. This ordinance shall take effect immediately.

The ordinance having been read once, Commissioner Gillen moved that it be ordered to a second reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

The clerk then read the ordinance by sections:

Title declared open to amendment.

Section 1 declared open to amendment.

Section 2 declared open to amendment.

Section 3 declared open to amendment.

Section 3 declared open to amendment.

Section 4 declared open to amendment.

Section 5 declared open to amendment.

The ordinance was declared open to amendment in all its parts.

The ordinance having been read a second time, Commissioner Gillen moved that it be ordered to a third reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Gillen moved that the ordinance be taken up on third reading and final passage on November 22nd.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Commissioner Breidenbach moved that the title of "An Ordinance authorizing the issuance of not exceeding \$25,000 of Temporary Improvement Bonds of the City of Newark for the conversion of the old pumping station on Clifton Avenue into a public bath house and comfort station and appropriating the further sum of \$25,000 for said purpose," be taken for its third reading.

The roll being called, the motion was declared adopted by the following votes:

The following communications were received and read:

North Jersey District Water Supply Commission
20 Clinton Street

Newark, N. J., November 3, 1921.

Mr. William J. Egan,
Of City of Newark,
City Hall, Newark, N. J.

Dear Sir:

In compliance with the direction of the North Jersey District Water Supply Commission I am enclosing

herewith (1) copy of a statement issued by the Chairman of the Commission and (2) a copy of a resolution adopted by the Commission.

Yours truly,

Edmond Tyler, Secretary.

October 27, 1921.

The North Jersey District Water Supply Commission will not meet until to-morrow.

As President of the Commission, I feel that I should make a personal statement in the meantime.

From the time the contract was entered into between the City of Newark and the Commission, the Commission has co-operated whole-heartedly with the City Officials. No important step has been taken without conference with these officials. Commissioner Raymond has himself public commended the Commission for its attitude of conference and co-operation.

In this spirit the Commission has complied with the suggestions of the City Officials not to insist upon payment in accordance with the contract and to ease the strain upon the City's finances, so that now over \$3,000,000 is in arrears and due to the Commission.

In this same spirit the Commission has from the beginning of the project employed Morris Sherrerd, first chief Engineer, and later, Consulting Engineer of the City, as the chief and consulting engineer of the Commission. Until his illness, the Commission in this same spirit, employed Spaulding Frazer, City Counsel, as Counsel of the Commission.

From the beginning until the present time neither in conference or otherwise has Commissioner Raymond or any other member of the City Commission expressed the slightest dissatisfaction with, or criticism of, the work of the Commission until the present attack.

There is absolutely no basis for Commissioner Raymond's statement that residents of Hudson County have been employed as appraisers of real estate. Nor is there any basis for his statement that in general residents of Hudson County have been employed in other capacities. So far as I know, the only Hudson County residents employed are a stenographer and a laborer. There is no foundation for the statement that residents of Newark are denied employment. The policy adopted has been as far as consistent with the proper execution of the work to prefer Newark applicants. No influence of Hudson County politicians has moved the action of the Commission in any regard.

The Commission has made every effort to secure the execution of its work as economically as possible. Not a single criticism in this regard, or suggestion of possible economies, has at any time been made by Commissioner Raymond or his colleagues.

The Commissioner's statement as to the amount of "overhead" costs, which he gives as between \$200,000 and \$300,000, is altogether without foundation. From the submission of the first bids, it has been apparent that if increased costs of labor and materials did not recede the original estimate of cost might be exceeded. The work has, however, been planned, as to its progress so as to take ad-

vantage of recessions in prices, and to keep down the aggregate cost to the minimum.

This situation was known to Commissioner Raymond and his colleagues before the first construction contracts were awarded. His, and their, position was that Newark needed the water, and that the work must proceed, whatever the cost, and the Commission's plan to keep down the cost was approved by him and them.

Some two weeks ago the Commission suggested to Commissioner Raymond a conference on the present and future progress of the work. This suggestion was made in accordance with the general policy of the Commission. No appointment of a time for such conference has been made by Commissioner Raymond.

Had he desired the facts, such a conference would have afforded them to him. Commissioner Raymond's statements are so wide of the facts that I am curious as to their source.

I notice that Commissioner Raymond says that his department could carry out the work with the addition of one stenographer. If he had accepted any of many invitations to inspect the work at Wanaque, which involves unusual and difficult engineering problems, and which has attracted wide-spread attention by the engineering profession, he would appreciate how utterly absurd this statement is.

Laurent J. Tennele, President,
North Jersey District Water Supply
Commission.

RESOLVED:

(1) That the Commission approve, and adopt as its own action, the statement of the President in reply to published comments of Commissioner Thomas L. Raymond.

(2) That in addition, the Commission declare that it has at all times co-operated fully with the City in all phases of the work and that it does not contemplate changing this policy. The fact that the City of Patterson would not at once join in the Wanaque development was known to the City of Newark and at the time that it entered into the contract with this Commission. If unexpected financial conditions due to other developments by the City of Newark, the increased cost of labor and materials, the unexpected decrease in consumption of water in the City of Newark making less immediate the need for the Wanaque development or other causes had, in the judgment of the officials of the City of Newark, demanded or made desirable, modifications of the contract, or changes in the program of progress of the work thereunder, these considerations and suggestions to this effect could, and should, have been brought to the attention of this Commission by the officials of the City of Newark.

The action of this Commission in consenting to Newark's deferring payments due and owing to this Commission under its contract with the City, until now \$3,000,000 is in arrears, indicates the attitude in which this Commission would have and will, receive and act upon, any suggestion along these lines made by the City.

(3) That a copy of the President's statement and of this resolution be forwarded to the City Commission of Newark by the Secretary of this Commission.

Ordered referred to the Director of the Department of Streets and Public Improvements.

Newark, N. J., November 4, 1921.

**PETITION AGAINST JITNEY
PARKING ON RECTOR STREET.**

We, the undersigned, property owners and residents on the block known as Rector Street between Park Place on the west and Ogden on the east, do hereby petition for the immediate elimination of jitneys parking or using said throughfare as a jitney station, which apparently has become such by the practice of jitney operators, adopted during the past month. This dual petition-complaint is made for the following reasons enumerated below:—

1. Since the inauguration of parking on Rector Street residents in going to and from their homes are oftentimes compelled to either get off the sidewalk on the property side, or else to travel in the center of the streets, in order to get past the gathering of jitney drivers who congregate in a bunch while engaged in loud and profane language, and who will not move enough to let pedestrians pass.

2. Frequent arguments occur among the drivers themselves as to the right of starting out on trips ahead of each other. According to the language used, they seem to forget that they are on a street inhabited by human beings.

3. Quartets are a frequent occurrence between 11 P. M. and midnight, formed entirely by the jitney drivers and their friends who apparently have little or no respect for residents of street, attempting to rest.

4. Girls and young ladies are subjected to insulting remarks from the drivers, who, if the girls ignore them, whistle and humm various songs after them in an effort to attract their attention.

5. A recent example of insults is as follows: A young lady, a new resident in the street, while passing a group of drivers overheard the remark from the group, "Where the H—— did that come from; we never saw her before.

6. The line-up of buses at times reach two-thirds down the block, so that the sidewalk is transformed into a narrow canyon thrown into total darkness, which encourages the drivers in their insults to passersby.

7. It is not an uncommon occurrence for the male residents to be jostled about to one side while the drivers are engaged in a playful rough and tumble bout among themselves.

8. Rector Street is composed largely of rooming houses, and with the parking of buses roomers in the street have become not only disgusted with this practice, but have also become so alarmed at walking pass the buses that they have threatened to change their place of abode if something is not done to remedy conditions as they now exist. This is detrimental to the owners of these rooming houses who depend on their business for a livelihood.

At this time we wish to also complain about the racing of the buses up Rector Street. If a policeman were stationed here for the purpose of arresting speeders he would well earn his annual salary in a few days from the fines the city would collect. When they turn the corner of Ogden Street into River Street one would think it was the fire engines approaching; for sirens, whistles and any other contrivances they have for making noise are set into action, simply to let the fellow in front of him know they are coming and ready to catch up to him. This one block seems to be the jitneys' paradise for testing out motors, cut-outs and other parts.

We do not believe that Captain McRell knows of the traffic violations taking place on Rector Street, for if he did we feel he would remedy it, especially with regard to driving west on Rector Street on the left hand side and refusing to move an inch for other motorists coming east on the street. From the attitude taken by the bus drivers Rector Street is apparently a one-way street, for there has been many a narrow accident averted by the promptness of civilian drivers bringing their cars to a complete standstill until the bus driver would move to the right side of the street under protest.

In closing, we wish to add that we are not so much concerned about the racing and driving on the left side as we would much rather prefer to have Captain McRell visit one of the residences listed below and view the conditions himself taking the number of buses, violating traffic rules so that the innocent may not suffer. We are all in favor of the jitney buses operating and we want them.

We are witnesses of the drivers' behavior, and we are writing solely for the elimination of any parking whatsoever on Rector Street.

Yours respectfully,

NEWARK, N. J.

November 15, 1921.

A regular meeting of the Board of Commissioners of the City of Newark was held on the above date in the Council Chamber, City Hall, Newark, at 11 A. M.

Present:— Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.

Absent:—Commissioner Gillen.

The minutes of meeting of November 9th were read and approved.

Mayor Archibald:—Director Gannon of Jersey City is here and would like to be heard on a matter.

Director Gannon:—I have been delegated to come here by the City Commission of Jersey City to ask Newark's financial support in the fight of municipalities against the Public Service Corporation for a reduced charge on gas. On many occasions in the past Newark has come to Jersey City for support and always received it. We are sincerely interested in the results of this very important fight for the public of Jersey City, and we feel you gentlemen of Newark are just as sincerely interested on behalf of the City of Newark to receive cheaper gas rates for the consumers of Newark. Jersey City has already appropriated \$10,000, and we find according to calculations of Mr. Record that that \$10,000 will be exhausted before the fight is finished, and we think Newark should contribute a similar amount.

At the last election in Jersey City the people voted by a very large majority for the establishment of a municipal gas plant, and I think the days of the Public Service in Jersey City in so far as supplying gas there are limited, but we are in this fight and must finish it. I think it is within the proper confines of the Board of Public Utility Commission who initiated this fight to finance it, but we have to be practicable. They have not sufficient funds at the present

time and cannot secure any additional appropriation until the end of the year. We might petition the Legislature to grant them additional funds, but whether or not they will grant it nobody is in a position to say. This is one of the most important utility fights we have ever had and we must continue it, and we sincerely hope the City of Newark will assist us financially as we have in trolley fights in the past.

Commissioner Raymond:—What do you want the money for?

Mr. Gannon:—For hiring of experts and special counsel.

Commissioner Raymond:—Mr. Congleton is going to hire experts for Newark and he has already been authorized to do so and he is prepared to fight the matter with vigor.

Corporation Counsel Congleton:—For the information of this Commission, I would like to say Commissioner Gannon has not been informed of latest developments. This Commission authorized the Law Department to fight this matter and gave us authority to employ experts. We have been in conference with the special counsel for Jersey City and are now conferring with him to see if we can agree upon the same experts. I want to say, however, that the State Utility Commission says it has not the money available just as Commissioner Gannon has said, to employ experts. This is a proceeding which they have initiated and it seems to me if the State Utility Commission is to be given power to initiate these proceedings we should go to the Legislature and see that they

have sufficient funds to do it and the burden of expense not placed on two municipalities.

Commissioner Raymond:—We have spent great sums of money in these various fights, and Jersey City and Newark have borne the greatest burden. In this case our Law Department is going to take care of the legal end of it and I would suggest to the Commission that we authorize Mr. Congleton to get in touch with the representatives of the Jersey City Government and to co-operate with them and to come to us for any funds that are required to effect that co-operation and make a good case for the people before the Commission.

I will move informally, to be made in the form of a resolution later on, that it is the sense of this Commission that we should co-operate in this fight with Jersey City and that we request Corporation Counsel Congleton to enter into negotiations with the Jersey City authorities and prepare a proper presentation of the people's case, and that we later make such appropriation as may be necessary to meet the expenses of the experts.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.

Commissioner Breidenbach offered the following resolution:

RESOLVED, That the report of the Commissioners for Local Improvements of the City of Newark, assessing benefits for the paving of Hansbury Avenue from Bergen Street to

Elizabeth Avenue, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed, and the City Clerk is hereby authorized and directed to file a duplicate of said report in the Office of the Comptroller of the City of Newark upon its confirmation for collection.

F. C. Breidenbach,
A. Archibald,
W. J. Brennan,
Thomas L. Raymond.

The roll being called, the resolution was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.

Mr. C. G. Titsworth, 667 Clifton Avenue, representing the Chancellor Realty Company, appeared before the Board and objected to the assessment for the paving of Goldsmith Avenue, stating that the assessment of \$11.90 a foot compared with the cost of re-paving Lyons Avenue was entirely too high and requested that the matter be laid over until he had had an opportunity to look into it further.

Mr. W. J. Burton, 237 Goldsmith Avenue, also objected to the amount of the assessment on the ground that it was excessive, especially in view of the fact that there is a parkway in the center of the street.

Objection to the assessment was also entered by the Estate of Joseph L. Tobin.

Commissioner Raymond:—There is a misunderstanding on the part of the public that these parkways save them money, but it costs them something

to put in the curb there. Goldsmith Avenue is not like Lyons Avenue. That is a through street and we apply certain rules there.

Corporation Counsel Congleton:—There is a big piece of property there owned by the Board of Education which they are about to sell. If they are going to sell they should not be permitted to get away with their assessment.

Commissioner Raymond:—It now transpires from what Mr. Soffel tells me this will be no benefit to the other property owners, as they have already allowed for the assessment on the Board of Education property, and they have taken it out of the cost. I do not think it is the intention of the Board to put more of this assessment on the City for this benefit. We have taken care of 18 per cent. of the cost of paving this street, which is practically a street for the benefit of the property owners and no benefit to the City.

Commissioner Breidenbach moved that the matter be laid over for four weeks.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.

Commissioner Breidenbach offered the following resolutions:

The following communications were received and read:

November 11, 1921.

Hon. Charles P. Gillen,

City Hall, Newark, N. J.

My dear Commissioner Gillen:

The president called attention of the Park Commission to the fact that the City is contemplating improving the old reservoir at Branch Brook Park as a swimming pool, he having seen such statements in the newspapers.

I am directed to call your attention to the fact that under the resolution

of July 26, 1895, this property was transferred to the care, custody and control of the Park Commission. The only reservation by the City was for the purpose of a public water supply. The property, therefore, seems to be absolutely under the Commission's control, as I understand the old reservoir has been abandoned for water supply and has been drained.

Very respectfully,

A. Church, Secretary.

Commissioner Raymond moved that the communication be referred to Mayor Archibald and Corporation Counsel Congleton.

The Port of New York Authority
11 Broadway, New York City

November 14, 1921.

Hon. Alexander Archibald,
Mayor, Newark, N. J.

My dear Sir:

Pursuant to the provisions of Chapter 203, Sec. 3, of the Laws of the State of New York, 1921, and Chapter 152, Sec. 8, of the Laws of the State of New Jersey, 1921, the Port Authority is now taking up, studying and considering the report of the New York, New Jersey Port and Harbor Development Commission made to the Governors and Legislatures of both States at the 1921 session. By sec-

tion 3 of the New York statute and by Section 8, of the New Jersey statute, the Port Authority is directed, among other things, to confer with the governing bodies of all the municipalities within the Port district, with a view to securing the benefit of their criticisms, suggestions and advice upon the comprehensive plan recommended to the Legislature of both States by the Bi-State Commission before the Port Authority makes its report, recommending the adoption of a comprehensive plan by the Legislatures.

In order that the Commissioners of the Port Authority may have the full benefit of such criticisms, suggestions and advice upon this report as you may desire to make, I would thank you to advise me if it would be convenient for you to meet with the Commission at its offices, 11 Broadway, on Wednesday, November 23rd, at 2 P. M.

Yours very truly,
Eugenius H. Outerbridge, Chairman.

Ordered referred to the Director of the Department of Streets and Public Improvements.

295 Passaic Street
Newark, N. J., November 14, 1921.

Board of Commissioners,
City Hall, City.

Gentlemen:

As owners of 212 feet frontage on Clay Street we desire to object to and protest against the repaving of Clay Street, for the reasons that the present pavement is in fair servicable condition; that the assessment for

present pavement (still in good condition), together with the street opening assessments, and other assessments have been an unusually heavy burden upon the properties in this street, and in fairness, if any repaving is done, it should be at the expense of the public-at-large, which will derive the benefit and not the abutting property owners.

Yours very truly,

Brothers Realty Company,

P. C. Walsh, Jr.

Ordered referred to the Director of the Department of Streets and Public Improvements.

State of New Jersey

Passaic Valley Sewerage
Commissioners

128 Market Street

November 12, 1921.

To the Hon. Mayor and
Board of Commissioners,
City of Newark, N. J.

Gentlemen:

The Third Supplemental Contract, which provided funds for the completion of that part of the sewerage works lying west of Newark Bay, was submitted to the municipalities on March 1, 1921. This contract was signed and the appropriation made available on July 29, 1921. Since this date rapid progress has been made toward the construction of the river crossings and branch sewers which comprise the major portion of the inland work remaining to be done.

In May, the United States Supreme Court rendered a decision favorable to the Commissioners, and closed the litigation which sought to restrain the use of the outfall works off Robins Reef.

Looking toward the earliest possible abatement of the pollution of the Passaic River, Hon. Thomas L. Raymond, Director of Public Improvements of Newark, called on October 6, 1921, an informal conference of representatives of the participating municipalities to review the status of the sewerage project, and to canvass the desires of the municipalities as to the early completion of the outfall works in New York Bay, and the possible use of Newark Bay as a place of temporary discharge.

The Conference was unanimous in its desire for the earliest permanent relief from the river pollution, and by resolution requested that the Commissioners submit, to the Contracting Municipalities, for consideration, a form of contract providing an ample appropriation for the completion of the outfall works; that the Joint Committee of Engineers consider and report its recommendations as to the practicability of a temporary discharge into Newark Bay; and that, in case the said report should favor such temporary discharge, the Commissioners, with the assent of the municipalities, make application to the Federal Government for the requisite permit.

A report has been rendered by the Joint Committee of Engineers which recommends that an additional appropriation of \$2,250,000 be authorized; that application be made for permission to temporarily discharge into Newark Bay such an amount of

sewage affluent as will not exceed the assimilating capacity of its waters; and that advantage be taken of such temporary discharge for the betterment of the river conditions and the lessening of new sludge deposits, particularly throughout the upper portions of the river.

A copy of the full report and recommendations of the Joint Committee of Engineers is appended.

Based on the conclusions reached at the conference of municipalities aforementioned there has been prepared and submitted herewith, for the consideration of the Contracting Municipalities, a form of Fourth Supplemental Contract carrying an additional appropriation, for the completion of the entire sewerage works, including the outfall tunnel to Robbins Reef, in the sum named by the Joint Committee of Engineers, namely, \$2,250,000 and providing that call be made for only such portions of said appropriation as may be required to meet prospective needs, with refund of any unexpended cash balance, and authorizing the application for and the acceptance of a license permitting the temporary discharge of a portion of the sewage effluent into Newark Bay.

Toward meeting this construction appropriation the contract provides that there shall be credited the monies which have accumulated as interest upon bank balances, deferred payments and the installments paid by the municipalities which have contracted for sewer capacity. The contributions from the seven applicant municipalities, if they are all admitted, will total \$2,826,420.49 and interest has accrued from various

sources, as of September 30, 1921, to \$1,348,907.35. The sum of these items gives a rebatable credit totalling \$4,175,327.84. The accompanying table shows the approximate amount of money payable by each municipality to complete the construction appropriation of \$20,250,000.

The Commissioners urge that the Contracting Municipalities adopt, at a very early date, the appended form of resolution authorizing the execution of the supplemental contract as submitted, so that the earliest possible relief may be had from the menace and nuisance arising from the polluted condition of the Passaic River.

Respectfully submitted,
Passaic Valley Sewerage Commissioners,

By James P. Logan, Chairman.
Ordered referred to the Director of the Department of Streets and Public Improvements.

CITY OFFICERS' REPORTS

The following report of the City Officers was received and ordered filed:

Auditor of Accounts for October, 1921.

Commissioner Brennan moved to adjourn.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.

APPROVED:

A. ARCHIBALD,
THOMAS L. RAYMOND,
W. J. BRENNAN,
F. C. BREIDENBACH,

The Board of Commissioners of
The City of Newark, N. J.

W. J. EGAN,
City Clerk.

NEWARK, N. J.

November 22, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, N. J., at 11 A. M.

Present:— Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Absent:—Commissioner Raymond.

The minutes of meeting of November 15th were read and approved.

The following reports of the Commissioners of Assessments for Local Improvements, assessing benefits for the following street improvements were received and ordered filed:

Resurfacing Bleecker Street, from Halsey Street to High Street;

Repaving of Elwood Avenue, from Mt. Prospect Avenue to Old Bloomfield Road;

Repaving of Elwood Avenue from Washington Avenue to Summer Avenue;

Resurfacing of South 13th Street, from Clinton Avenue to Madison Avenue.

County Counsel Charles C. Pilgrim appeared before the Board and stated that the County was building a Tuberculosis Sanitarium at Verona and that it was necessary to devise some ways of getting coal to the institution in a cheaper and more expeditious manner, and to that end a coal conveyor had been devised by Mr. Runyon, running from the Erie R. R. tracks to the Sanitarium, but in order to accomplish this it would be necessary to secure from the City title to a sufficient strip of land from the railroad siding to the institution for a long and substantial term.

Mr. F. O. Runyon, Engineer in charge of the erection of the Tuberculosis Sanitarium at Verona outlined the plans for the conveyor and stated it would be necessary to secure from the City title by deed or easement to certain strips of land owned by the City in order to accomplish the conveyor system, and filed a map showing the ground required.

Commissioner Breidenbach moved that the matter be referred to the Mayor and Corporation Counsel Congleton for further consideration.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Breidenbach moved that the following ordinances be laid over for one week:

APPROVED:

Commissioner Breidenbach moved that the matter be referred to the Mayor and Corporation Counsel Congleton for further consideration.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Breidenbach moved that the following ordinances be laid over for one week:

An ordinance to provide for the opening of a new street to be called Carnegie Avenue from Haynes Avenue to McClellan Street;

An ordinance to provide for the repaving of Clay Street and Carlisle Place from Broad Street to Ogden Street and from Ogden Street to the Passaic River on both sides of the street railway tracks with the exception of one foot on each side of said tracks, with new oblong granite block pavement on a built up concrete foundation between Broad Street and Ogden Street and a new six (6) inch concrete foundation between Ogden Street and the Passaic River;

An ordinance to provide for the repaving of Bridge Street from Broad Street to the Passaic River on both sides of the street railway tracks with the exception of one foot on each side of said tracks with new oblong granite block pavement on a new six (6) inch concrete foundation;

An ordinance to provide for the repaving of Ogden Street from Fulton Street to Bridge Street with new oblong granite block pavement on a new six (6) inch concrete foundation on both sides of the street railway tracks with the exception of one foot on each side of said tracks.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Breidenbach moved that the title of "An Ordinance to

provide for the opening and widening of Park Place from Rector Street to Saybrook Place on the easterly side thereof," be taken for its third reading.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

The clerk then read the title of the ordinance as follows:

An ordinance to provide for the opening and widening of Park Place from Rector Street to Saybrook Place on the easterly side thereof.

The ordinance having been read three times, was then declared to be upon its third and final passage.

The roll being called, the ordinance was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

The following communication was received and read:

THE CITY OF NEWARK
Law Department
November 21st, 1921.

Hon. Charles P. Gillen,

Director of Parks & Public Property,
City Hall.

Dear Commissioner Gillen:

Your inquiry as to the right of the City to establish a swimming pool in

the Clifton Avenue reservoir has necessitated a careful examination of the records of the Newark Aqueduct Board, the Common Council and the Board of Street and Water Commissioners of the City of Newark with a view of ascertaining the various formal steps which were taken heretofore taken with respect to the custody and control of this property.

The Reservoir site and adjoining lands were originally conveyed to the Mayor and Common Council of the City of Newark by the President and Directors of the Newark Aqueduct Company by a deed recorded in book D. 11 of deeds for Essex County on pages 64 to 72, and an examination of the records of the Essex County Register's office shows that since that time there has been no deed recorded in said office conveying the property or any part thereof out of the Mayor and Common Council of the City of Newark. It appears, however, that the Newark Aqueduct Board, which succeeded to the property of the Newark Aqueduct Company, at a special meeting held on December 16th, 1889, requested the Common Council of the City of Newark to concur in the dedication of said lands as a public park, to be known and designated as "Reservoir Park, subject to the right of this Board and said City or any department thereof having the control and management of its water supply to use, construct and maintain therein Reservoirs and Pumping Stations for the supply of said City with water," and the Common Council on December 20th, 1889, by resolution concurred in the action of the Aqueduct Board and assumed control of the land for use as a public park to be known as "Reservoir Park, subject, however, to the right of the Newark Aqueduct Board of the City to use,

construct and maintain on said land or any part thereof reservoirs and pumping stations for supplying the City with water." The land so dedicated did not, however, include the Pumping Station.

The Board of Street and Water Commissioners of the City of Newark on July 18th, 1895, by resolution transferred its care, custody and control of Reservoir Park to the Essex County Park Commission; "subject, however, to the right of this Board or of the City of Newark to use, construct and maintain on said lands or any part thereof, reservoirs and pumping stations for supplying the City with water, and to use and maintain sewers now constructed and to construct, use and maintain such other sewers, as shall be necessary or proper as a part of the City's system of sewerage with free access to said sewers for the purpose of cleaning and repairing same, and to use and maintain telegraph and telephone lines now constructed and to construct, use and maintain such other telegraph and telephone lines as shall be necessary or proper as a part of the City System in connection with its fire, police or other departments with free access to said telegraph or telephone lines for the purpose of repairing the same, subject, however, to the right of the Essex County Park Commission at the expense of said Commission, to place and maintain the said wires underground or in other suitable conduits."

There would seem to be authority in law for the action of the Newark Aqueduct Board and the Common Council of the City of Newark in dedicating these Lands to park purposes.—See P. L. 1886, page 393. Under the act creating the Newark

Aqueduct Board—P. L. 1860, page 442, approved March 20th, 1860, the Board was authorized to sell such portions of land held by it as might not be necessary for public purposes, but it was made the duty of the Common Council, after certificate from the Aqueduct Board, to direct the Mayor to execute a good and sufficient deed for the purpose thereof.

By the provisions of Chapter CXXXIV, P. L. 1891, page 249, approved March 28th, 1891, the Board of Street and Water Commissioners was substituted for and became vested with all powers, rights, duties and authority vested in the Aqueduct Board, as well as power and authority to construct, improve, repair, manage and control public parks and places. The Essex County Park Commission was created under the provisions of Chapter XCI, P. L. 1895, page 169, approved March 5th, 1895, and section 18 of said Act provided that any City or Municipality within the county or any local Board in any such City or Municipality having control of parks or streets therein was authorized and empowered to transfer the care, custody and control of any park under its control to the Board of Park Commissioners, with its consent, and such Board of Park Commissioners was authorized to give such consent. While it would appear that the law gave the City of Newark the right to transfer Reservoir Park to the Essex County Park Commission there appears to be no record of any concurrence by the Common Council of any such action of the Board of Street and Water Commissioners, and it is my opinion that the resolution of the Board of Street and Water Commissioners of July 18th, 1895, required the concurrence of the Common Council of the City of Newark before such

action could be effective. There is, therefore, doubt as to the validity of this transfer of Reservoir Park to the Park Commissioners.

It is also my opinion that the reservation in favor of the City of Newark contained in said resolution of July 18th, 1895, for the use and maintenance of said lands or any part thereof for reservoirs and pumping stations for supplying the City with water is reasonably susceptible of a construction that would permit the use of the old Reservoir by the City of Newark for a swimming pool for its inhabitants.

Respectfully yours,

Jerome T. Congleton,

Corporation Counsel.

Ordered received and filed.

Gentlemen:

As owners of frontage on Carlisle Place, I desire to object and protest against the repaving of Carlisle Place,

for the reasons that the present pavement is in fair serviceable condition; that the assessment for present pavement (still in good condition), together with the present opening assessments, and other assessments have been an unusually heavy burden upon the properties in this street, and in fairness, if any repaving is done, it should be done at the expense of the public at large, which will derive the benefit and not the abutting property owners.

Mayor's Office, City Hall
Paterson, N. J.

Dear Sir:

The question of improved passenger service for communities this side of the Hudson becomes constantly more pressing. It is essential to our proper

development that quick and comfortable communications between cities in the New Jersey metropolitan district and with New York be provided.

It seems feasible at a comparative small outlay to link up the various lines coming to the Hudson so that facilities of all lines could be easily available to a resident of any New Jersey community without his going to New York or Jersey City to transfer. Similarly it is possible of early realization that passengers for New York should be carried directly into that city without change at the water front.

To discuss this proposition and take effective action a conference will be held at the Paterson City Hall, 2 P. M., Thursday, December 15th. Short addresses will be made by authorities in railroading, finance and other departments bearing upon the question. You are cordially invited to attend, or to appoint a substitute delegate to represent your city. Will you kindly acknowledge promptly to the secretary and advise the name of your delegate.

The plan set forth in the accompanying pamphlet was originated by Mr. Herbert S. Swan, consultant to our Commission. It is not intended to be final, only suggestive. It will be the basis of discussion at the conference. It has been talked over with the board (the Port Authority), which is replanning the rail and harbor freight facilities of the port of New York and adjacent territory. They think the plan has merit and are entirely friendly to the purposes of this conference.

Our Commission will be gratified to know promptly of your interest and

co-operation in this attempt to promote an early solution of what is rapidly becoming a grievous problem.

Very truly yours,

B. H. Saunders,
Chairman, City Plan Commission.

NEWARK, N. J.

November 29, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

Present:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

The minutes of meeting of November 22nd were read and approved.

Dr. William G. Hanrahan, 36-A Fulton Street:—I have a petition which I would like to offer and there are a large number of taxpayers here who would like to be heard at some length on the proposed repaving of Fulton Street, because we feel we have some good arguments against it.

To The City Commissioners
of Newark, New Jersey.

Gentlemen:—

The following named property owners or representatives of property owners protest against assessment for resurfacing of Fulton Street for the following reasons and other reasons to be stated before your Honorable Board.

Recently a very heavy assessment was levied against Fulton Street property for the opening and grading of Front Street, now known as Ogden Street, against the will of the local tax payers for and by the City, resulted in great detriment to Fulton Street property, the consequence of this general City improvement made Fulton Street a feeder to Broad Street, our main City artery, bringing through Fulton Street a great amount of heavy trucking with its subsequent noise, vibration, dust and dirt, destroying the quiet and privacy formerly enjoyed by the residents of Fulton Street, at the same time mutilating the pavement which was in good condition at the time Front Street improvement was made.

Another assessment at this time following the one for Front Street or Ogden Street is much like confiscation. We hope this assessment will be put in general tax levy in justice to Fulton Street property owners.

(Signed by 26 property owners.)

Ordered referred to Director Raymond.

Dr. Hanrahan:—We have paid a very heavy assessment for the grading and paving of Front Street, which

brought about the wearing out of this pavement by the diversion of heavy truck traffic, which has destroyed the street. This repaving will result in bringing about conditions there most undesirable. I would like to differentiate on the Park Place property which was put in the general tax levy. In Park Place some of the abutting property owners wanted the improvement made, and still in spite of that it was put in the general tax levy, and we feel we have come before you with justification in asking for the elimination of this or put it in the general tax levy. You put Park Place in the general tax levy. This is a general city improvement and you have levied it on abutting property owners right on top of an assessment for the opening of Front Street. Some time ago in a conference with Commissioner Raymond he stated it would be put in the general tax levy, and I thought this would be done.

Commissioner Raymond:—I don't remember that. We may have said a part of it would be put in.

Dr. Sidney A. Twinch, 24 Fulton Street:—When I went to Fulton Street some eight years ago, it was a quiet street, and now there is a hobnob all day long and I and many other residents wish we were out. We feel we should not be taxed for an improvement for the general public.

Mrs. Laura Cook, 41 Fulton Street, stated that in 1917 her property was taxed \$277 for the opening of Front Street and that it brought her nothing but dirt, noise and a horrible class of people.

Mrs. Jacob Kalin, 22 Fulton Street, stated that Fulton Street since the opening of Front Street has become the thoroughfare of heavy traffic and

the parking place at night for pleasure cars and that at 11 o'clock at night after theatrical performances everyone on Fulton Street was disturbed from their sleep by the starting of cars and felt the property owners should not be assessed for an improvement for the benefit of the public at large.

Mr. Frederick Jay, 790 Broad Street, representing the Broad Street Theatre, stated the improvement was of no benefit to his clients and that it should be assessed on the City at large.

Commissioner Raymond:—I frankly confess where a street like this is paved and used for general traffic, I feel your complaints are well founded, and where a street is worn out by general traffic and not by vehicles delivering goods to your house, but by heavy traffic using it as a thoroughfare, I feel it is wrong to assess the property owners. I feel just the same about Kinney Street. We cannot put it all in the tax rate and we have a problem.

Commissioner Raymond moved that the report of the Commissioners for Local Improvements, assessing benefits for the resurfacing of Fulton Street be laid over two weeks, in order that the Commissioners may have a conference and see what we can do with it.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Mr. Alonzo Church, 810 Broad Street, appeared before the Board and entered objections to the repaving of Bridge and Ogden Streets on the same grounds as the previous speakers regarding Fulton Street, and stated the property owners were all opposed to the repaving of these streets and that the pavement was in good condition for their needs and that if the streets were repaved it should be done at the expense of the City, as it would be a benefit to general traffic and not to the property owners.

Mr. P. C. Walsh appeared and reiterated his objection to the repaving of Clay Street and Carlisle Place and stated all of the property owners were opposed to it.

Commissioner Raymond moved that the ordinances providing for the repaving of Clay Street and Carlisle Place, the repaving of Bridge Street, and the repaving of Ogden Street be laid over for two weeks.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Mr. Lathrop Anderson, 474 Broad Street:—Mr. Bacheller and I are representing the Public Library. We were appointed some time ago as a Committee to secure Branch Libraries in the congested sections on the Hill and Ironbound Districts. We have canvassed the sections and find it impossible to get anything suitable for our purpose. At our last meeting the Board of Trustees decided the wise thing to do would be to buy sites in

those two sections and build branch libraries. We are here today to ask you to give us an appropriation for two branch libraries, one in the Hill section and one in the Ironbound section. We calculate the sites and buildings that we will use for temporary purposes will cost \$50,000 for each section, and we would like to ask if you will give us an appropriation for those two branches.

Commissioner Raymond:—I feel that the whole Board was elected on the platform of branch libraries for the people of this city, and I think we all agree that these branch libraries should be put in the congested districts first where people cannot afford to have comfort and facilities.

Commissioner Raymond moved that the proper proceedings be taken to issue bonds for \$100,000 to establish the two branch libraries in the two districts mentioned.

Commissioner Gillen:—I am opposed to that motion. I think I came near being defeated on that platform. I am in favor of branch libraries, particularly in congested districts, because that is where books are required more than any other sections, like Roseville, Forest Hill or Clinton Hill sections, where the people have their own books and libraries, but in congested districts where people are very poor they require books and other reading matter. I believe there should be branch libraries, and I think the suggestion that they be conducted in the schools is an excellent one and should be considered before anything else, principally because of the question of economy. Complaints are coming to us daily and anyone in public life realizes that our tax rate is too high, and instead of a prospect

of a lower tax rate we have the prospect of a higher one, and there is no doubt that this tremendous tax rate inflicts an injury on the City which it is difficult to cure, and I agree that a very high tax rate is a black eye to the City. It hurts business interests, real estate interests and it hurts almost every interest in the City. I do not think there is any question but what the public schools could be used to excellent advantage for branch libraries. The branch libraries were closed during the war in accordance with the request of the government, and all books were transferred to the large or parent library and the business branch.

We are all agreed on the necessity of branch libraries and economy and the big problem we have to solve is how to beat both. I say you can meet the wishes of those gentlemen in charge of the City's library by putting branch libraries in schools where the people have already invested hundreds of thousands of dollars for these buildings and in which there is ample room to put these branches. I think instead of one or two branch libraries we should have a dozen or fifteen. I think it can be worked out and it has been worked out in other cities.

Some five or six years ago when I was on the Board of Works, which was then somewhat of a respectable body, I was put on a Committee and we took up the question of branch libraries, and there was no dissension there at all, and the Committee decided to establish branch libraries in the public schools. This Committee was composed of very good citizens, most of them successful business men and all public spirited and just as anxious to have proper and ample

libraries as you are, Mr. Anderson. I have always been convinced down to the present moment that the public schools should be used as the proper basis for branch libraries. For instance at the closing hours of the schools someone from the Library could be placed in charge of the Library and the teachers at closing hours could assist the Librarian to distribute books to children, and children could come from their homes in the morning with a list of books required, and if the books selected were not the best kind, we found teachers could go so far as to suggest to children the kind of books and give them to the children.

It has always seemed to me a greater distribution of books could be made and those who really wanted to read and learn could in that way receive the books they wanted most with much better facilities than by establishing one or two branch libraries. Here we have right around the corner a big school with plenty of room and why not use it? Why put in branch libraries separate and apart? You might say it would be better to have separate branches, because the people come there and sit there and enjoy the privileges of sitting there. The same facilities could be offered in the schools.

Mr. Anderson:—When you were President of the Board you brought up the same question, and a Committee was appointed to wait upon the Board of Education, and we did not seem to be able to work out a plan. First they told us they could not give us room in the schools because all schools were congested. The schools are open from 9 in the morning until 3:30 P. M., and we found the teachers could not attend to distri-

ing books, and we would have to put in our own help, clerks from the Library, and that the schools could not be open after 3:30. Many people want to get books in the evening. The Library is open every day in the year from 8:30 until 9 P. M., including Sundays and Holidays, and we could not do that with the schools and the Board of Education wanted to control the whole thing and did not want us to have charge of it.

Commissioner Breidenbach: I would like to say a few words on behalf of the Ironbound and Hill sections. In the Ironbound section we have no public buildings, and I agree with Mr. Anderson's remarks that the Library Trustees should run these Libraries under their control. I believe the Ironbound section with 85,000 population is entitled to a branch library, and I approve of this bond issue of \$100,000 for this purpose.

Commissioner Raymond:—It seems to me Commissioner Gillen stresses a great deal on the wider distribution of books. Our feeling is that the two branch libraries which we plan putting in the crowded sections of the City will not only provide a center for the distribution of books, but will in a culture sense establish a place where people may go and sit comfortably and have at their hand books of reference, pamphlets and magazines and enjoy the pleasures of a reading room, a place with attraction and charm which they do not have at home, and that is my idea of the importances of this sort of thing; a well lighted, clean, warm and attractive place that will inspire them with finer thoughts and finer ideals to which they may go to spend time with profit and pleasure. The last year the Hayes Street Branch was open it was overcrowded with men, women

and children night and day, and it is absolutely impossible to plan any such use of public schools as Mr. Dana has in mind. In so far as these two branch libraries all concerned, to my mind it is entirely a different proposition from what is wanted in Roseville. No doubt in time a system can be worked out for the distribution of books in this section through the public schools. My idea in voting so enthusiastically for these two buildings is to give these people culture under the splendid influence of our Library, where books can be distributed by trained persons, so I shall vote for this proposition.

Mr. J. Henry Bachellor, 2 Ferry Street:—Let me say this in reference to the use of schools for library purposes. I am quite in accord with Mr. Gillen, to do nothing to increase the tax rate, but when Mr. Gillen was Mayor he knows we done our best to have the School Board and the Library Trustees get together with reference to branches in the schools. After a great deal of discussion and investigation, it was found, I think by both Boards an impracticable thing to do. For twenty years the Library has stood still so far as expansion is concerned. The time has come when we have got to get it. At present we practically house the Newark Museum in addition to the Library, with no increase in facilities during the past twenty years. We feel it is absolutely necessary to branch out in order to take care of the business. The Library is an absolute necessity to the people of Newark.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Raymond, Mayor Archibald.
Nay:—Commissioner Gillen.

Commissioner Raymond offered the following resolutions:

RESOLVED, That the report of the Commissioners for Local Improvements of the City of Newark, assessing benefits for the repaving of Lewis Street from West Kinney Street to Seventeenth Avenue, which said report is hereto annexed, be and the same is hereby in all things adopted, ratified and confirmed, and the City Clerk is hereby authorized and directed to file a duplicate of said report in the office of the Comptroller of the City of Newark upon its confirmation for collection.

Commissioner Raymond moved that an ordinance entitled "An Ordinance to provide for the opening of a new street to be called Carnegie Avenue from Haynes Avenue to McClellan Street," be laid over three weeks.

The roll being called, the motion was declared adopted by the following votes:

Yea:—Commissioners Breidenbach, Brennan, Gillen, Raymond, Mayor Archibald.

Mr. Joseph Kussey of the Board of Education appeared before the Board and stated that the Janitors who served at the different school buildings at the last Municipal Election had not yet received any compensation.

Mayor Archibald informed Mr. Kussey to take the matter up with the City officials having charge of election matters.

Mr. Noah Geiger appeared before the Board and presented the following resolution:

VETERANS' ALLIANCE OF
ESSEX COUNTY

WHEREAS, The Board of Control of Institutions and Agencies of the State of New Jersey is considering the advisability of transferring the Civil War Veterans from the Soldiers' Home in Kearny to an institution in Trenton, which contemplated action is objectionable to the veterans themselves, who desire to have the present home retained, and live there until "taps" has blown for the very last Civil War Veteran in the home; and,

WHEREAS, the majority of the veterans in the home come from this section of the State, and also that a great number of them are confined to their beds and not in a condition to be transferred to another building; and,

WHEREAS, it is the sentiment of the Alliance that the Civil War Veterans now residing at the Soldiers' Home in Kearny should be the ones to decide whether or not they should be transferred from a place that has been a home to them for years, and in which many of their comrades have lived and died, to a new institution in a different section of the State; therefore, be it

RESOLVED, That the Veterans' Alliance of Essex County, composed of representatives of every veteran organization in the county, does hereby strenuously object to the Board of Control of Institutions and Agencies removing the Soldiers' Home in Kearny to Trenton without the consent of all the Civil War Veterans now residing there, and we call upon all organizations interested in the welfare of the men who fought for

the flag in '61, to adopt resolutions of protest; and, be it further

RESOLVED, That copies of this resolution be forwarded to Governor Edwards and the State Board of Control of Institutions and Agencies, and also that copies of the same be given to the press.

Commissioner Raymond:—I would like to offer a resolution upon the death of Mr. Shipman, which I deeply regret to say occurred last Sunday. Mr. Shipman was a very efficient public servant with a very splendid personality and fine character in every way; the type of gentleman we do not find nowadays, the real type of an old-fashioned American gentleman, and his death is an irreparable loss to my Department and the City generally, and I therefore offer a resolution which I would ask the Clerk to read and request that a copy be engrossed and sent to his bereaved family.

RESOLVED, That the Board of Commissioners of the City of Newark does hereby express its deep sense of loss in the death of Charles M. Shipman, General Superintendent of the Bureau of Street Regulations of the Department of Streets and Public Improvements, whose many years of faithful service made him a valuable public servant and whose genial personality endeared him to all with whom he came in contact; and be it further

RESOLVED, That this Board extend to his bereaved family its sin-

cere sympathy at this time, and that a copy of this resolution, properly engrossed, be sent to them.
